**Job title: Field Service Technician**

**Location:** Pelham, Alabama

**About the Opportunity:**

During the past 22 years, ICT has built a worldwide reputation as a results oriented company in the areas of pulverizer and boiler testing, combustion troubleshooting, consulting, and training services to the fossil fired power plant industry. We excel in the areas from the pulverizer to the stack because we understand power plant processes and operations. As a complement to our core business, we now offer a full array of diagnostic and compliance environmental testing services.

Innovative Combustion Technologies, Inc. provides a unique environment that fosters individual growth and rewards performance to our productive team members.

**Position Description:**

Candidate would work with engineers and other field technicians performing a variety of boiler tests on large utility coal-fired boilers. Boiler testing includes using specialized instruments to measure airflow, coal flow, flue gas species, and other parameters. Extensive travel is required. Minimum of 50% of total time is spent in the field with the remaining time devoted to lab/analytical tasks, entering and checking test data, equipment maintenance, and other duties in our Pelham, AL office.

**Qualifications:**

- Minimum education requirements of an Associate's degree, a Bachelor's degree, or equivalent technical training gained through military service and/or work experience
- Strong technical, mechanical, and computer skills
- Strong math skills for analysis of field-testing data
- Proficient with MS Word, Excel, and Outlook
- Excellent physical condition and willingness to work in physically demanding environments
- Experience working in a power plant or similar environment is a plus
- Hobbies that show technical inclination are also a plus.
- Able to travel 50% of time (includes some weekends)
- Clean background check and driving record
- Drug Free

**Benefits:**

Our competitive salary and benefits package includes 401K, dental insurance, medical insurance, paid company holidays, and 12\* paid days off a year. (\*PTO earned on monthly basis).
